

Resilience Day 2018 - Would you be ready?

A resilience event for businesses

On Tuesday 24th April, to coincide with Business in the Community's (BITC) Responsible Business Week, we are delighted to invite you to our Annual Resilience Day. Hosted by BITC's The Prince's Business Emergency Resilience Group (BERG), in collaboration with HR Wallingford, an independent civil engineering and environmental hydraulics organisation.

When: 9:30 – 15:30

Where: HR Wallingford,
Howbery Business Park,
Crowmarsh Gifford,
Wallingford OX10 8BA

April 2018

24

This year's event will see the launch of 'Would you be ready?' – a high profile project aimed at changing the behaviour of smaller businesses to be more resilient. Smaller businesses are the lifeblood of our communities and a growing economy. Most do not have the resources in place to prepare or respond effectively to disruptions.

The day includes an exciting line-up of key note speakers from across the not-for-profit, business and government sectors on a range of resilience themes including flooding and cyber resilience. You will have the opportunity to take a tour of HR Wallingford's world-class modelling and simulation facilities.

Dr Bruce Tomlinson, CEO, HR Wallingford Group: HR Wallingford provides expert solutions to water-related challenges. Flooding, drought, climate change: resilience is at the heart of what we do, and we look forward to welcoming the resilience community to Howbery Park.

Mike Still, Chairman, The Prince's Business Emergency Resilience Group: BERG is an outstanding initiative creating a unique collaboration between the public and private sectors. Working in collaboration to encourage greater resilience, BERG helps smaller businesses, your customers and suppliers prepare for, respond to and recover more quickly from emergencies.
